

# Poltergeists

By, Alex Dake

**Coal Beens  
and Ptatrz  
Prdukshzn**

My book is about a girl who is haunted by a poltergeist. RL Stine is my author. RL Stine always learns about real life events about poltergeists and haunted houses. Today I am doing a project on his inspiration. I hope you enjoy my project on haunted houses brought to you by coal beens and ptatrz.

# About my Book

My book is called Fear Street Sagas The Awakening Evil. In my book a girl named Jane switches spots with her friend Sarah and marries someone named Thomas so her Friend wouldn't have to marry him. Sarah drowned in a boat to Lundon. She possessed Jane and made her kill everyone even her husband. Sarah got rid of her by drowning herself before she could hurt her niece and nephew. RL Stine created The Fear Street Sagas off of real happenings. This story is very creepy.

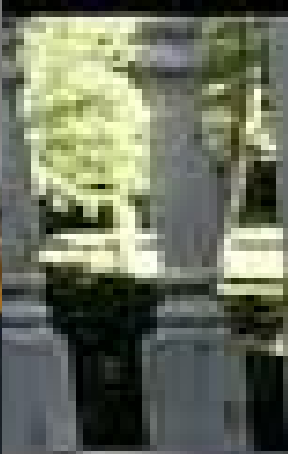

Another book in this series

R.L Stine

“My job is to give kids the CREEPS”. R.L. Stine has sold over 350 million books. He wrote Goosebumps and the fear street sagas. R.L. Stine is famous all over the world and had a movie made after him and all his monsters coming to life. That goes along with the 74 episodes he made. He is rich now and lives in a mansion. He still writes books for kids.

# 50 Berkeley Square

50 Berkeley square is definitely the most haunted house in England. The legend of the poltergeist there is different than all these videos. In the late 1700s a man used the attic as a place to keep his mentally retarded brother who was as violent as Lucifer. He died in that room. A few years later a maid slept in the room. She was found frozen in fear and was crazy from then on. Years later a man slept in the room to prove that there was no such thing as ghosts. He was found dead in the morning. In 1880 a former captain in the army brought a pistol and a bell and slept upstairs while 3 friends slept downstairs. Around midnight the captain rang the bell for help. As his friends came upstairs, they heard a shot and they found the captain dead with a look of fear twisted on his face. In the early 1900s 2 drunken men thought 50 Berkeley Square would be a great place to spend the night. They saw the ghost and one escaped. He told a police on patrol and they went back to the house. The other man had been stabbed through his chest while jumping out the window onto the pointy fence below. As he lay dying he couldn't explain what caused him to jump.

# Haunted White House

The White House in Washington DC is not only the president's house but is also very haunted. The ghost of 16th president Abraham Lincoln is the most popular and most seen ghost in the white house some people have even fainted at the sight of him. Another ghost is Thomas Jefferson. He was or 3rd president. His ghost can be seen swearing or playing the fiddle. There are many ghosts at the white house and hopefully I may someday see one.

# The Winchester House

Sarah Winchester's Husband made the famous Winchester rifles. When he died Sarah held a seance. She met many ghosts inside the house who haunted her because they had been killed by the rifles. Sarah felt bad and went kind of crazy and kept adding rooms. The construction went until the minute Sarah died. There were 160 rooms, 2000 doors, 10000 windows, and 47 stairways. The house is now a museum and many people experience ghostly breezes and falling objects. Over one hundred people have felt the presence of a ghost.

# Screaming Tunnel

The Screaming Tunnel in Niagara Falls is an Urban Legend of a screaming girl. A young girl escaped her barn which had caught on fire. Her clothes were on fire and the tunnel had a stream of water going through it. She made it but died before she could roll around in the water. Another story is that a married couple fought a lot. The young woman was beaten until she went blind. She walked through the tunnel every night screaming so that the world could feel her pain. There are many versions but these 2 seem the most believable.

# Hellfire Caves

deadlyphoto.com

Hellfire Caves are very haunted. Many people had rocks thrown at them. Many people have witnessed a girl in a white dress. This ghost's name is Sukie. In the late 18th or early 19th century Sukie worked at a bar and a couple young men were into her. She dated some dude who wanted to meet her in the caves. She wore her best white dress. The note was a hoax and 3 neighborhood boys started teasing her. Sukie threw stones and they threw them back and knocked her unconscious. They took her into the cave where she died. Her ghost is still seen.

# The Lalaurie House

The Lalaurie House is a house of torture. In the early 1800's Madam Lalaurie was a rich woman with a fancy house but there is more to that story. Neighbors swear they saw madam Lalaurie chasing a slave girl across the roof. The girl to scared to face the whip jumped to her death. In 1834 a fire broke out. In the attic they saw a hidden room with terribly tortured slaves, bones and limbs thrown on the floor. There were many bodies under the floorboard and some were later found long after Madathe m Lalaurie fled to France. The house is currently occupied by the spirits of the slaves.

# ARE GHOSTS REAL?

Of course, many **ghost** hunters would claim that this makes sense, since we can't expect the tools of this world to detect **ghosts** from the spirit world. In the end, it's up to you to determine whether you believe **ghosts** are **real**. There's no scientific evidence for **ghosts**.

Have you  
ever seen a  
ghost???
